

THE 27th International Science Olympiad for Young Mathematicians, Physicists and Chemists

Mathematics

Form 10.

1. Integers
2. Rational and irrational numbers
3. Square roots
4. Polynomial equations
5. Triangle geometry, Pythagorean theorem

Form 11.

1. Integers
2. Modules
3. Integer solutions of equations
4. Triangle and circle geometry
5. Functions

Form 12.

1. Integers, divisibility
2. Probabilities
3. Integer solutions of equations
4. Triangle geometry
5. Number sequences
